Mar. 24--PETERSBURG, Ohio--Two women in a small barn in rural Mahoning County bottle Milsek, a furniture polish and cleaner that has been popular locally since 1914, but now is distributed nationwide.

Besides being sold in 42 states, Milsek is used on furniture in the penthouse suites at the MGM Grand and Imperial Palace casinos in Las Vegas, singer John Mellencamp's home in Indiana and several homes designed by Frank Lloyd Wright.

Since Dave and Jean Hamilton bought the business from a relative in 1982, marketing has been increased and several part-time workers have been hired to handle bottling. Weekly production has gone from about 300 bottles to 5,000 bottles.
